

TOPIC: Urban Interaction Design

Short Description of the Project(s):

Members of the team:

Michael Smyth (m.smyth@napier.ac.uk), Andreas Unteidig (andreas.unteidig@udk-berlin.de), Ileana Apostol (ileanaapostol@gmail.com), Gonzalo Reyero (gonzalo.reyero@gmail.com), Anna Chronaki (chronaki@uth.gr), Maria Zacharaki, Vasilis Niaros (vasilis.niaros@gmail.com), Joatan Preis Dutra (joatan@gmail.com), Ben Zevenbergen (bendert.zevenbergen@oii.ox.ac.uk), Nikoleta Arkouda (letta_ark@hotmail.gr), Eleni Dimopoulou (Ine.dimopoulou@gmail.com), Georgiana Avram (georgi2anna@gmail.com)

Disciplines Involved:

Human Computer Interaction, Civil Engineering, Architecture, Urban Planning, Interaction Design, Sociology, Environmental Engineer.

How do you foresee the role of the different disciplines in this project?

All participants have been involved in the concept generation phase of the project - 3 ideas have been refined during group discussions, field trips into the city and in discussion with the DIY network group.

The three projects (working titles) are as follows:

1. The Photobooth Project
2. The Exchange of Message Project
3. The City Questions Project

What do you plan to present on Friday panel?

The hope is that the group will present the concepts, supported by physical prototypes and visual imagery.
